

End of the Year Information

The boys' academic schedule will provide time for them to prepare their personal items for storage and transporting the week before and during the final exam week. We can provide boxes at a cost, and we will store items here over the summer (at no cost).

We will also arrange for items within the U.S. to be shipped by U.P.S. Items to be shipped outside the U.S. will be handled by Hans Hermanson before the first of June. Graduating international students may leave their boxes in storage here over the summer and we can ship to their U.S. college next fall if they leave the correct amount in their student account.
