

Blue Ridge School's athletic program has developed a history of tradition and excellence during more than 110 years.

We support 20 varsity and JV athletic teams playing in the Virginia Independent Conference (VIC) and the Virginia Independent School Athletic Association (VISAA). Blue Ridge requires students to participate in an extracurricular activity each trimester, producing many three-sport athletes. In addition to traditional sports, we offer non-competitive outdoor adventure sports, mixed martial arts, and marksmanship.

Our athletics program takes advantage of our natural surroundings, particularly our 750-acre campus. Our mountain biking team, Outdoors Programs, and cross country teams use the 15-miles of trails on our mountain, while our more traditional sports practice and play at the Baron Athletic Complex, including an all-season turf field, a 2000-square foot weight room, and our multi-sport field house.

Blue Ridge School is committed to the many benefits of the teacher-coach model. Most of our coaches are full-time faculty members who live on campus and play an active, daily role in the life of each student-athlete.
